

105. Keep going in this direction with the river meandering to the right to Hermitage Bridge.
106. From Hermitage Bridge, keep the river on the right. Go under Twemlow Railway Viaduct and over a stile to a road. Take care: you emerge straight onto the busy A535.
107. Carefully cross the road and T-L onto pavement (hedge on the right). After 150m the pavement ends at a house, "Saltersford Turnpike". Continue on the verge. Where the hedge obstructs the verge wait until the traffic is quiet to continue. A lay-by will come into view on the other side. 10m before the start of the lay-by, when there is good sight of traffic,

108. Go over the stile onto Dane Valley Way
109. Follow the cross-field paths, for 2km, (River Dane on the right) passing through Bowshot Wood and Pigeon House Clough to arrive at Brook Farm.
110. T-R and walk along the byway passing Ashtree Farm to a track on the right.

111. Go down this track crossing over Swettenham Brook and up to a lane and T-R.
112. After 30m T-L onto a footpath. Walk over the field and onto the lane at Swettenham Church opposite the Swettenham Arms.
113. T-R onto the lane, soon going downhill.
114. After 800m, cross the bridge over the River Dane.
115. Continue for 1km, pass Davenport Hall Farm, Grange Farm and Davenport House to arrive at the A54.
116. Cross straight over the A54 with care to follow a lane.
117. T-L after 250m, through K-G, into Brereton Heath Local Nature Reserve.
118. From the Visitor Centre and toilets, walk along the path with the lake on the right.
119. Take a path branching off left and then to the furthest diagonal corner from the visitor centre to emerge from the woodland, through a K-G, onto Brereton Heath Lane.
120. Cross over the lane through the K-G opposite and continue with the field boundary on the left. After 400m, at the left-hand corner of the field, go through a K-G, immediately followed by a footbridge and another K-G.
121. Continue in about the same direction as before, across a large open field 500m long, hopefully with the path having been made obvious by the farmer. After 300m, look for a path bearing slightly left to the next K-G by an oak tree and then into the next field.
122. Continue in about the same direction across the next field and about half way go over a little bridge and then head for a K-G onto Smethwick Lane and T-R.
123. Soon follow the lane round to the left, then continue for 400m to Home Farm (on the left) and a footpath sign.
124. Go over the stile onto a grassy track. After 50m, go over a further stile and into a field (boundary on your left).
125. After 300m go over a double stile (now with the field boundary on the right).
126. Walk another 300m, but 20m before the end of the field go through a farm gate and T-L on a track.
127. Follow the farm track in about the same direction as before (field boundary now on the left) for 400m towards Lower Medhurst Green Farm.
128. At the T-junction of tracks T-R, to approach the farm buildings on the right.

129. Soon after the first building bear left through a gate at a path fingerpost to follow the field boundary on the right. After 50m go through a gate and T-L onto the farm drive. After a further 50m T-L onto a metalled farm track and almost immediately through a gate to continue on the track.
130. After 150m go through a farm gate, the metalled track petering out in 20m.
131. Keep going with the boundary on the right for 300m to a farm gate and over a complicated double stile.
132. In 300m, over another double stile into the next field and continue with the boundary on the right.
133. After 150m a copse, in a hollow, should appear on the left and soon after, look for the remains of a stile to go around, but continue with the boundary on the right.
134. 250m after the copse, T-R on track. At roundabout follow anti-clockwise using three road crossings then keep on the pathway/cycleway onto and along Sandy Lane.
135. After 300m T-R through a K-G onto a field path.
136. Follow the field boundary on your left for 300m and as you approach the road (A534) go through a K-G on your left.
137. After the K-G go diagonally half-left down the field to the A534.
138. Cross the A534 to enter Fieldhouse Farm Drive, go over the stile on the right to continue on a farm track.
139. After a short distance bear right (the track bears left) keeping a wooded hollow to the right and go across the field for 50m and through a K-G. Continue in the same direction to the next K-G, 100m ahead in the boundary on the right.
140. Through the gate going right continue with the boundary to your right for 150m to a further gate.
141. Through the gate and continue in about the same direction to the next K-G 100m ahead. Through that K-G and across a little plank bridge through another gate onto a farm track and T-L.
142. Follow the farm track towards Bent Farm.
